Wood Doors

Dear Mr. [REDACTED]:

Reference is made to your letters of 12 October and 13 October 1953, same subject.

The "sturdy door" as manufactured by the Hardwood Products Corporation of Neenah, Wisconsin, will be acceptable as meeting contract requirements.

If delivery date proves to be unreasonable for these doors, it is recommended that we accept doors made by reputable manufacturers using the National Woodwork Manufacturer's Association specifications as minimum requirements in order to prevent any further delay on this project.

Very truly yours,

25X1A9a
